It pays especial attention to the publication of full, truthful and unvarnished statements of the resources of California and the entire Coast; of PUBLIC AND PRIVATE LANDS available for intended purposes; of the advantages and disadvantages to be met with by those looking to California for FUTURE HOMES; of the best methods of agriculture, fruit and vine growing, etc. The Union also makes a specialty of furnishing promptly through the columns, or by letters, full information upon all subjects, in answer to correspondents, and in which manner a vast amount of information concerning the resources of the State, details as to location, etc., is constantly given.
